Hoop Beef Systems, LLC

On Thursday March 11, 2010 Hoop Beef System LLC will be hosting a cattlemen’s Open House at Grand Meadow Feeders, 553-620th St., Washta, IA. The cattlemen’s Open House will start at 10 am and last until 2 PM.

Grand Meadow Feeders is a brand new 960 head capacity feedlot built by Hoop Beef Systems, LLC it will serve as a research and development facility as well as an educational center for Hoop Beef System and its customers across the Midwest.

Grand Meadow Feeders consists of three 320 head capacity Hoop Beef System buildings, a Commodity Shed for storing Ethanol Co-Products and feedstuffs, bunker silo for high moisture corn storage, a hoop style machine shed and a new office complex.

“We felt the time was right for our investment in this facility. We saw the need to have a feedlot to develop new concepts and to be able to collect precise data on the costs and benefits of feeding in a properly designed hoop style cattle feedlot.” Brent Bryant, Managing Director, Hoop Beef System LLC.

During the cattlemen’s Open House industry representative will be on hand to discuss several topics. There will be a review of rations for starting light calves, grower rations and finishing rations all using Ethanol Co-Products. Producer’s Livestock will be on hand to discuss marketing and risk management options for improving cattle feeding profitability. There will be a discussion of animal health, vaccination and receiving protocols. Central States Livestock will be presenting information on feeder cattle procurement and using feeder cattle futures. Participants will have an opportunity to review cattle feedyard management software designed for Midwest cattle feeder. And finally information on manure and nutrient management for hoop barns will be available.

“The cattlemen’s Open House will be a great day for cattlemen and women across the Midwest to come see a facility using the most advanced technology available to cattle feeders and see how it works in a real world environment.” Dr. Robert Bryant, Founder, Hoop Beef System, LLC.
