Iowa
CATTLEMEN'S
ASSOCIATION

PERFORMANCE BULL SALE

MARCH 16, 2020 • 6:30 PM • BLOOMFIELD, IOWA

For more than thirty years, the Iowa Cattlemen's Association has provided third party verified performance bulls and females through our Symbol of Excellence Performance Bull and Heifer Sales. Annually, we invite seedstock producers from across Iowa and beyond to test their best genetics against one another. In the end, bulls and heifers that make the consignment sales at Bloomfield, Kirkwood, and Knoxville must express their potential to sire calves that will tip the scales at weaning, or be a female that will stand the test of time and raise calves that do so.

This group of 46 Bloomfield sale bulls started as a group nearly double in size. At ICA, we take pride in offering the best cattle to producers in our great state and others across the country. We hope that you can take comfort in knowing that we have started the selection process for you, as we offer Excellence in this year's consignment sale. In addition to being registered with a breed association, ICA Symbol of Excellence bulls must surpass the muster of the following qualifications during and after the commercial grow yard testing period.

- **Minimum 1,100-pound adjusted yearling weight.**
- **Minimum 11.5-square inch ultrasound ribeye area measurement.**
- **Must pass a breeding soundness exam with a minimum 32-centimeter scrotal circumference measurement.**
- **Must rank in the upper 90% for average daily gain amongst their breed contemporary group.**

Focusing on the future...

Yes, comparative analysis is tangible and easy to point out in development facilities. However, we strive to balance performance data during the testing windows with even more important economic factors of bull potency and longevity. After all, purchasing bulls is an investment, and at the end of the day if that investment is not expressed through a higher performing calf-crop, then how good of an investment have you made? The group of yearling bulls that are being offered today had a combined average daily gain of 4.14 pounds per day on test, while the falls bulls combined average was 4.21 pounds per day on test. More importantly, these bulls are ready for the roughest of terrains for the spring/summer breeding seasons—both structurally and reproductively.

Pedigree Performance Matters...

Looking for proof that these bulls are the real deal? Take a look at their pedigrees - the writing is on the wall. In the yearling group alone, over half rank in the upper 30% or better in their breed for WW & YW EPDs with a number of these bulls ranking similarly within their breed for CED and BW EPDs. Also, we are pleased to offer you trait leaders in each respective breed within both the fall and yearling bull offerings.

Need More Data? We've Got It!

Each individual has been put through one of the most meticulous performance testing programs in the country. These bulls have been selected to participate in this sale on structure and reproductive soundness, and have had to excel in all performance categories. Your purchase is backed by as much proof that is available to ensure that your next calf crop will tip the scales at weaning and/or perform in the feedyard for more profitability.

Sincerely,
Lane Eads, Eastern Iowa Membership Coordinator
Iowa Cattlemen's Association - (641) 777-1589

On behalf of Iowa Cattlemen's Association and Ruble Cattle Services we would like to welcome you to the Bloomfield Symbol of Excellence Bull Sale. We have a great offering this year of Angus, Red Angus, & Simmental & Sim Angus bulls. The ICA is one of the leading state cattlemen's groups in the country. This sale and organization are of the highest reputation. We are excited to again be working with the ICA as sale managers on our first sale in the trilogy of ICA Sales. As Matt mentioned, these bulls have jumped through many hoops and they come from several programs and a large cow base. The bulls have been developed properly and you will be impressed when you come to the sale. What an opportunity to pick bulls from three breeds with full EPDs, Indexes and weight measurements. This year I took a more active role in recruiting new consigners and helping current consigners pick bulls to put on test. As a result, we have increased quality and have a more uniform group of bulls from top to bottom. Both bull development centers involved in this sale did an impeccable job feeding and developing the bulls. The bulls look great and have been fed to express their genotype but with longevity in mind. If you can't make the sale this year, please contact the sale management or any of sale marketing team for assistance. If you would like to see the bulls ahead of the sale, please follow our online link to an individual video for each bull. Please make sure to register prior to the sale. We look forward to helping you find your next herd bull.

Sincerely,
Jeremie Ruble

- OLF BEEFMAKER C168
- OLF PATRIARCHS GIRL Z100
- AA R TEN X 7008 S A
- HL ERICA 97628
- HL MS LUTTON Z51

A true performance oriented beef bull! F61 won the fall test by over a pound clear of every other bull on test; gaining a whopping 5.5 pounds a day. If you're serious about raising feeder cattle that will bust the scales at weaning, or finishing cattle that will pound up, this is the bull to take a look at. He reads incredible for EPDs, ranking in the top 10% of the breed for weaning weight and yearling weight. Physically he is impressive as well, as he is stout, big topped, heavy muscled and stands on a big foot. This is the type of animal that we at Heartland Simmentals strive to produce; that is functional not only on paper, but is also physically impressive.

CNS DREAM ON L186
 THO/LTS DIVAS MOCO
 WAR DIVA M704

Ford Moco's Fortune 81F is a top shelf breeder bull that combines a high value pedigree with a phenotype that reads longevity and replacement female generating machine. Sired by the highly maternal and NWSS Champion, TNGL Grand Fortune and out of the 2009 National Champion Simmental Female THO/LTS Diva's Moco whose own daughters have been generating sale topping progeny for years. The utility of a bull like this for an operation is hard to create and represents the best of Ford Cattle Company bulls!

- DEER VALLEY RITA 0308

- CONNELLY CONSENSUS 7229
- DEPPE 7229 RITA 6126
- BALDRIDGE RITA T808

Dam's Ratios: BW: 1@93, WW: 1@112. PRIME HERD BULL CANDIDATE! Here is an impressively balanced trait carcass bull that will add marbling to earn that prime premium. Ranks in top 5%-\$M, 4%-\$W, 2%-\$F, 2%-\$G, 1%-\$B and 1%-\$C. He is 1 of only 13 non-parent bulls in the Angus breed that can match that combination while being the outcross genetically. We really like what our Consensus 7229 daughters are bringing to the table. They are moderate framed, easy fleshing females with excellent udders, great carcass value and easy going dispositions. Excellent calving ease option for heifers. *Retaining 1/3 semen interest.*

998 has been the man among the boys since he was born. He will be one of the most powerful built bulls in the offering. Since his Angus GS test that moved his BW EPD to +6, I still would not be concerned if you are putting him on mature cows. If you sell cattle by the pound and want to sire cattle that will weigh a lot and bring you home a bigger check, this is definitely the bull to find sale day. He is super big hiped, big bodied, and loaded with power from front to back.

Sire of Lot 47

Dam's Production:
BW 4@95, WW 4@104, %IMF 3@103, PATHFINDER DAM. A powerful CALVING EASE sire that will add marbling & carcass genetics, as well as maternal qualities. His ABS sire, Bubs Southern Charm has been the top selling sire for the last 2 years. His sons are being snatched up around the country due to their Elite Beef Value, performance and marbling genetics along with being attractive patterned, sound structured, slick haired with added capacity, fleshing ability and muscle shape. This bull hits all of the marks. Maternal brothers to this bull have sold to Golden Chute Ranch, Walker, IA & Don Dyson, Albia, IA & a sister sold to Lexi Knapp, Bloomfield, IA. Recommended for Heifers with a +1.1 BW & +11 CED EPDs.

Dam's Production: BW 2@98, WW2@105. This bull will sire moderate birth weight calves with explosive growth and performance. He is bold ribbed, well balanced, with a lot of muscle, and sound with good feet and legs. This Easy Decision bull has an impressive EPD spread from BW to YW. His dam is a beautiful, easy fleshing cow that raises beautiful heifers and scale dropping bulls. The first four consecutive paternal dams are all Pathfinder Females. The work is all done. He has a nice balance of numbers, phenotype and maternal qualities.

Endura Gate

The portable gate system that works like permanent fence.

- Use as calving pens, fence, swinging gates or anywhere corral panels are used.
- The 10' gates swing 360 degrees and fold flat against either side of the mainframe.
- Tires will easily break free from any frozen surface.
- Models range from 20' to 60', and make up to four calving pens with one freestanding gate.

Perfect for Calving Season

Endless Applications

Compact & Mobile

Never Drag a Gate Again!
