IOWA CATTLEMEN'S
ASSOCIATION

Symbol of
EXCELLENCE
PERFORMANCE BULL SALE

MONDAY, MARCH 23, 2026
TAMA LIVESTOCK AUCTION
6:30 P.M.

Welcome

For 41 years, the Iowa Cattlemen's Association (ICA) has provided third-party verified performance bulls through our 'Symbol of Excellence' Performance Bull Sale. Annually, we invite seedstock producers from across Iowa and beyond, to test their best genetics against one another. In the end, bulls that make the consignment sale at Tama must express their potential to sire calves that will tip the scales at weaning and excel on the rail.

With that said, ICA takes pride in offering the best cattle to producers in our great state and others across the country. We hope you can take comfort in knowing that we have started the selection process for you at our sale, as we offer 'Excellence' in this year's consignment sale. In addition to being registered with a breed association, ICA's 'Symbol of Excellence' bulls must surpass the muster of the following qualifications during and after the commercial grow yard testing period.

- Minimum 1,100-pound adjusted yearling weight.
- Minimum 11.5-square inch ultrasound yearling ribeye area measurement.
- Must pass a breeding soundness exam with a minimum 32-centimeter scrotal circumference measurement.
- Must rank in the upper 85% of all bulls indexed.

Yes, comparative analysis is tangible and easy to point out in development facilities. However, we strive to balance performance data during the testing windows with even more important bull potency and longevity economic factors. After all, purchasing bulls is an investment, and at the end of the day, if that investment is not expressed through a higher-performing calf crop, then how good of an investment have you made?

The group of bulls being offered at the Tama 'Symbol of Excellence' sale were required to have a minimum 2.5 pounds per day on test. More importantly, these bulls are ready for the roughest of terrains for the spring/summer breeding seasons—both structurally and reproductively.

Each individual has been put through one of the most meticulous performance testing programs in the country. These bulls have been or will be selected to participate in this sale on structure and reproductive soundness, and have had to excel in all performance categories. Your purchase will be backed by data and will help to ensure that your next calf crop will rattle the scales at weaning and/or perform in the feedyard and on the rail for increased profitability.

If you have received this catalog in advance of the sale, videos of each bull are available on the ICA website (www.iacattlemen.org). There will also be an online auction option. Details will be available on the Bull Evaluation Program page on the ICA website.

Thank you for your continued support, trust, and belief in the consignor group and your Iowa Cattlemen's Association!

Sincerely,

Cody Jimmerson

Iowa Cattlemen's Association

Sale Information

Sale Location:

Tama Livestock Auction - 1908 E 5th St. Tama, IA 52339

Sale Representatives:

Iowa Cattlemen's Association, Cody Jimmerson..... 515-971-3127

A calving ease bull with plenty of punch and true shape. This bull has been a standout since birth and has done nothing but get better every day on feed. Athletic in his build, stout from all angles and plenty of performance on paper to match his phenotype. An outcross pedigree to a lot of mainstream bulls today that can complement a lot of cow herds.

Thank You!

The Iowa Cattlemen's Association thanks Boehringer Ingelheim for their continued support and dedication to the ICA Bull Evaluation Program.

We appreciate their partnership and support of the Iowa cattle industry.

Is a Stunner bull with good maternal EPDs? No, he isn't going to be the sire for your 1st time heifers, but he will do well on your cows giving you better daughters for replacement heifers. Ranking in the top 10% for UDDR and following along with top rankings for FL, \$EN, & AMP; MH. He's telling us that he will be producing easier daughters that will be proven both functional and efficient. Saving you money with feed cost, along with WW trait to give calves with about 74 lbs. more weight on them at weaning getting them to market faster.

This bull is backed by a really good Resource Bull out of one of our top young cows. His Payweight dam is out of a herd favorite and a full sister to the \$6,500 top selling bull from a past ICA sale. His dam's first calf is retained in the herd as one of our top bred heifers.
