**IOWA CATTLEMEN'S
ASSOCIATION**

SYMBOL OF EXCELLENCE
PERFORMANCE BULL SALE

MARCH 15, 2021
6:30 PM
BLOOMFIELD, IOWA

Welcome

For thirty-six years, the Iowa Cattlemen's Association has provided third-party verified performance bulls and females through our 'Symbol of Excellence' Performance Bull and Heifer Sales. Annually, we invite seedstock producers from across Iowa and beyond to test their best genetics against one another. In the end, bulls and heifers that make the consignment sales at Bloomfield, Kirkwood, and Humeston must express their potential to sire calves that will tip the scales at weaning, excel on the rail, or be a female that will stand the test of time and raise calves that do so.

This group of 42 Bloomfield sale bulls started as a group nearly double in size. At ICA, we take pride in offering the best cattle to producers in our great state and others across the country. We hope that you can take comfort in knowing that we have started the selection process for you, as we offer Excellence in this year's consignment sale. In addition to being registered with a breed association, ICA Symbol of Excellence bulls must surpass the muster of the following qualifications during and after the commercial grow yard testing period.

- Minimum 1,100-pound adjusted yearling weight.
- Minimum 11.5-square inch ultrasound yearling ribeye area measurement.
- Minimum 1-square inch per 100 lbs. on fall bull ultrasound ribeye area measurement upon delivery.
- Must pass a breeding soundness exam with a minimum 32-centimeter scrotal circumference measurement.
- Must rank in the upper 90% for average daily gain amongst their contemporary group.

Focusing on the future...

Yes, comparative analysis is tangible and easy to point out in development facilities. However, we strive to balance performance data during the testing windows with even more important economic factors of bull potency and longevity. After all, purchasing bulls is an investment, and at the end of the day, if that investment is not expressed through a higher performing calf-crop, then how good of an investment have you made? The group of yearling bulls that are being offered today had a combined average daily gain of 3.51 pounds per day on test, while the fall bulls combined average of 3.63 pounds per day on test. More importantly, these bulls are ready for the roughest of terrains for the spring/summer breeding seasons—both structurally and reproductively.

Pedigree performance matters...

Looking for proof that these bulls are the real deal? Take a look at their pedigrees the writing is on the wall. In the yearling group alone, over half rank in the upper 30% in their breed for WW & YW EPDs with a number of these bulls ranking similarly within their breed for CED and BW EPDs. Also, we are pleased to offer you trait leaders in each respective breed within both the fall and yearling bull offerings.

Make no mistakes with a surplus of data!

Each individual has been put through one of the most meticulous performance testing programs in the country. These bulls have been selected to participate in this sale on structure and reproductive soundness, and have had to excel in all performance categories. Your purchase is backed by as much proof that is available to ensure that your next calf crop will rattle the scales at weaning and/or perform in the feedyard and on the rail for increased profitability.

Thank you for your continued support, trust, and belief in the consignor group and your Iowa Cattlemen's Association!

Sincerely,
Lane Eads
Iowa Cattlemen's Association

Sale Information

SALE LOCATION:

Bloomfield Livestock Market
510 Weaver Rd, Bloomfield, Iowa 52537
Phone: (641) 664-2435

SALE REPRESENTATIVES:

Sired by Destiny. Impressive individual with strong muscle pattern, long and deep sided, cleanly made. Strong maternal power combined with old school genetics are expressed on his bottom side. We all know the numbers of old are not comparable to those of today, don't let them fool you! Look at the raw data and performance at the test station. Double Down is backed by the legendary Sedgwicks Erica cow family and the unparalleled muscle, volume, and fleshing ability of the versatile OCC Anchor 771A. Double Down excels in DMI, HP, \$EN, Claw, Angle, and \$M EPD's.

Dam's production: BR 5@99 with 2 daughters retained in the herd.

Sired by Destiny. This calf is long, deep, wide, and heavy structured. However, this bull remains clean made. Strong maternal performance is in his pedigree. Maternal grand-sire, O'Neill Expedition 1022, left a legacy of tremendous daughters with exceptional capacity, soundness, and udder confirmation. Another maternal grandsire, SAV Progress 9682, left his own impact with daughters that are of similar make. Rouge Force excels in MW, MH, PAP, REA, \$F & \$B EPD's. He held his own on test. Dam's production: BR 3@92, NR 3@106, YR 3@105 with 2 daughters retained in the herd.

Here is one with a little more frame that would be a good fit for those bigger cows. With a 71 lb. birth weight, he will also work on heifers. Of our fall bulls he had the top weaning weight, and finished the test with a WDA of 105.

Here is a blend of growth and easy fleshing genetics. He's sired by the high growth Genex bull, Boyd Gun Powder. His dam, by the easy fleshing and keeping specialist, Emblazon, this natural son of the 10-year-old donor gave us what one would expect. You would guess her to be a 5-year-old when you study her. She has a great udder, plenty of milk, she's feminine fronted, good hiped, deep middle and easy to get along with. This bull has tons of performance with a big middle, easy fleshing appearance with plenty of muscle. Did I mention, this bull has a 78 lbs actual BW and the growth at weaning and yearling is exceptional? His REA at 1.2 inches per 100# of yearling weight is excellent. This bull had the largest REA of any Fall Bull on test and the highest WDA of any fall bull.

KJHT Power Take Off 2070
 Sire of Lot 16

This son of KJHT Power Take Off, who was 9 months old when he was crowned National champion at NAILE in 2015, did the job when he was on test. He will also get the job done on pasture as well. This bull has an exceptional set of wheels underneath him and will be able to cover a number of cows this spring. He was on the higher end of ADG Ratio with a 105. This is no surprise when he ranks in the top 9% in YW EPD and top 5% in ADG EPD.

A tremendous job accomplished by a young up and coming 3-year-old Lawmaker daughter. Stemming from the great, Byergo Andy, these daughters are feminine, powerful maternal cows with great temperament and udders. RV Cannon 0360 is sure to check off a lot of boxes on your list. Cannon is a very complete bull with loads of muscle, volume, and structural correctness. Not to mention an elite pedigree backing him. He is wide topped, deep bodied, and has great feet. Just an all-around elite herd bull for a commercial producer.

RV Bunker 0369 is a powerhouse of a bull that stems from our herd sire, Byergo Gateway 8200, a HA Cowboy Up son. The best description of Bunker could be a "real and rugged stock bull". This bull is sound, with extra thickness and extension. He ranks in the top 10% for WW and the top 15% for YW, Milk, CW, \$W and \$F. His 6-year-old dam is the complete package with maternal power, structural correctness, and absolutely gives up no power from front to back!

Here's a dandy feature from Byergo Titus 6340. RV Trogan 0377 is a low birth, calving ease bull who also possesses terminal qualities. He stands square on four corners, and has that herd bull presence that really grabs your attention. He stands in the Top 1% for \$M, top 5% for \$W, top 10% for WW, and Top 15% for \$C. His dam heirs from the great Byergo Andy 0115 and is really long bodied, good footed, and packs a level tight udder. Trogan will work great on heifers and cows, but won't give up any performance.

KR Synergy
Sire of Lot 43

This calving ease bull by KR Synergy and a HA Cowboy Up 5405 dam has a +13 CED, +15 CEM & a -2 BW. "Synergy" is ultra-correct, square, and attractive in his design with top EPD percentile ranks in nearly all traits! His final ADG of 3.67, Ratio 108 indicates good growth along with his calving ease, so he's a "sleep all night" and sit back & watch them grow bull kind of bulls. The Lady Blackbird cow family has been a backbone of our herd and adds muscle, rib, shape, good feet, and longevity. RECOMMENDED FOR HEIFERS or COWS!

This Musgrave Sky High son is one of the Top ADG and WDA bulls in this year's Bloomfield Test. He is a super big hipped, big bodied, and loaded with power from front to rear. Sky High sons are attractive and bred for growth, longevity, and maternal power. His maternal brother sold through this sale last year to Highview Angus, Pulaski, IA. If you sell cattle by the pound and want to sire cattle that weigh a lot and bring you home a bigger check, this is definitely the bull to find sale day!

This is my favorite calf we consigned this year. His dam is a 12-year-old, perfect uddered Pendleton daughter. Need to keep all his heifers from this mating with his sire being Hoover Notary. He had a final ADG of 3.99 and an ADG Ratio of 117.

A true performance calf out of Hoover Notary. He shows promise of being a herd bull ranking in the top 10% of the breed for WW, YW, CW, \$F. Dam is from our most productive cows from the Blackbird Family. We continue to breed for performance, but notice the notes on Lot 50, we emphasize carcass traits as well.

This Hoover Notary son is well above average in general production, maternal and carcass traits. His final ADG was among the top of his group, and he had a ADG Ratio of 105. His Weight Maker/Fame dam had 9 calves weaning weight ratio of 103. We prove our cow herd carcass traits by feeding that don't fit our seedstock standards. We are cashing in on 90% grading Prime on the grid.

Sire is our new herd sire we purchased from Schroeder Angus. Schroeder Brilliant 1257 is proving to be a tremendous herd sire. He is a full brother to the dam of the Reserve Grand Champion Bull at the 2020 National Junior Angus Show, Chap Erica SA No Limit G65. Dodds Husker exhibits many of his traits; deep quarter, strong rib, loads of capacity, and excellent feet and legs. He is a calving ease bull and is extremely docile. He has a great set of EPD's and large testicles. His dam is out of a select female from Hinman Angus, Montana.

**Chap Erica No Limit G65**

Sire of lot 53 is the full brother to the dam of the 2020 NJAA Res. Champion bull.

The Smooth Criminal calves are known for having a ton of performance and this guy is no different. This guy ranks in the top 10% of the breed for WW, YW, and ADG. He posts an 89 for WW and 139 for YW EPD's! He is stout made, big footed, and powerfully made. If you want to add extra muscle and performance than look at this guy, he is certain to sire calves that will bring top of the market and rattle the scales.

Powerful, stout, and rugged are the words that best describe this WS Proclamation E302 son. If you want to raise fast growing calves that will bust the scales at weaning this calf, top 15% in WW, will help you get there. If you retain ownership on your calves his high YW will help increase profitability through efficiency as well.

Here is a well-designed Big Ticket son. Big Tickets are known for coming easy, having plenty of middle, sound footed, and grow fast. This bull has proven to be no different, being the highest gaining Simmental on test. He reads excellent on paper with a 0 BW, over 100YW and an API of 139. This is a herd sire prospect that will also make some exceptional replacements!

Join the herd

The Iowa Cattlemen's Association is the only grassroots cattle organization in the state providing producers with assistance to support their legacy.

► 2021 PRIORITIES

- Lead minimum cash trade legislative efforts at the federal level
- Oppose unnecessary environmental regulation
- Protect your legacy by opposing detrimental tax policy
- Support opportunities to assist the next generation of cattle producers
- Provide risk management tools and resources for all cattle sectors
- Advocate for producer relief to aid in recovery from extreme market disruptions
- Continue to increase member engagement with elected and agency officials

► MEMBER BENEFITS

- Policy leadership at the state and federal levels
- Marketing support programs such as Market Reporting Service and Cattle Krush
- Legal assistance
- Educational events (in-person & virtual)
- Comprehensive print and electronic communication resources

► ICA PROGRAMS

ICA provides services to its members through additional programs. Those include:

- Bull and Heifer Evaluation Program
- Cattle Theft Reward Program
- Custom Cattle Feeders Directory
- ICA Carcass Challenge
- Young Cattlemen's Leadership Program
