

SYMBOL OF EXCELLENCE

Iowa
CATTLEMEN'S
ASSOCIATION

PERFORMANCE BULL & HEIFER SALE

MAY 1, 2020 • 6:30 PM • KNOXVILLE, IOWA

For more than thirty years, the Iowa Cattlemen's Association has provided third party verified performance bulls and females through our 'Symbol of Excellence' Performance Bull and Heifer Sales. Annually, we invite seedstock producers from across Iowa and beyond to test their best genetics against one another. In the end, bulls and heifers that make the consignment sales at Bloomfield, Kirkwood, and Knoxville must express their potential to sire calves that will tip the scales at weaning, or be a female that will stand the test of time and raise calves that do so.

This group of bulls and open females started as a group nearly double in size. At ICA, we take pride in offering the best cattle to producers in our great state and others across the country. We hope that you can take comfort in knowing that we have started the selection process for you, as we offer excellence in this year's consignment sale. In addition to being registered with a breed association, ICA 'Symbol of Excellence' bulls and heifers must surpass the muster of the following qualifications during and after the commercial grow yard testing period.

Iowa Cattlemen's Association Bull Requirements

- Rank in upper 90% of contemporary group for ADG.
- Minimum 1,100-pound adjusted yearling weight.
- Minimum 11.5-square inch ultrasound ribeye area measurement.
- Must pass a breeding soundness exam with a minimum 32-centimeter scrotal circumference measurement.
- Must rank in the upper 90% for average daily gain amongst their breed contemporary group.

Iowa Cattlemen's Association Female Requirements

- Minimum adjusted pelvic measurement based on chart of minimum calf weight.
- Frame Score - maximum of 8.0.
- Adjusted yearling weight minimum of 730 pounds.

Focusing on the future...Yes, comparative analysis is tangible and easy to point out in development facilities. However, we strive to balance performance data during the testing windows with even more important economic factors of bull potency and female longevity. After all, purchasing cattle is an investment, and at the end of the day if that investment is not expressed through higher performing calf-crops for years to come, then how good of an investment have you made? The group of yearling bulls that are being offered today have a combined average daily gain of 4.18 pounds per day on test. The females boast a 2.60 average daily gain while on test. More importantly, the bulls and females have the tools to excel in even the roughest terrain- both structurally and reproductively.

Pedigree Performance Matters...Looking for proof that these bulls and heifers are the real deal? Take a look at their pedigrees - the writing is on the wall. In this group alone, over half rank in the upper 30% or better in their breed for WW & YW EPDs with a number of these lots ranking similarly within their breed for CED and BW EPDs. Also, we are pleased to offer you trait leaders among the heifer and bulls groups.

Need More Data? We've Got It! Each individual has been put through one of the most meticulous performance testing programs in the country. These bulls and heifers have been selected to participate in this sale on structure, reproductive soundness, and have had to excel in all performance categories. Your purchase is backed by as much proof that is available to ensure that your next calf crop will tip the scales at weaning and/or perform in the feedyard for more profitability.

Sincerely,
Lane Eads, Eastern Iowa Membership Coordinator
Iowa Cattlemen's Association - (641) 777-1589

On behalf of Iowa Cattlemen's Association and Ruble Cattle Services we would like to welcome you to the Knoxville 'Symbol of Excellence' Bull & Heifer Sale. We have a great offering of Angus, Simmental, Sim Angus & Charolais bulls. The ICA is one of the leading state cattlemen's groups in the country. We are excited to again be working with the ICA as sale managers on our last sale in the trilogy of ICA Sales. As Lane mentioned, these bulls have jumped through many hoops and they come from several programs and a large cow base. The bulls have been developed properly and you will be impressed when you come to the sale. What an opportunity to pick bulls from four breeds with full EPDs, Indexes and weight measurements. This year I took a more active role in recruiting new consignors and helping current consignors pick bulls and heifers to put on test. As a result, we have increased quality and have a more uniform group of bulls and a strong set of breeder quality heifers from top to bottom. The bull and heifer development centers involved in this sale did an impeccable job feeding and developing the bulls and heifers. The bulls look great and have been fed to express their genotype but with longevity in mind. If you can't make the sale this year, please contact the sale management or any of the marketing team for assistance. If you would like to see the bulls ahead of the sale, please follow our online link to an individual video for each bull and heifer. Please make sure to register prior to the sale. We look forward to helping you find your next herd bull. The bulls and heifers will be available to view with an appointment. Please feel free to contact me at **(406) 581-7940**.

Sincerely,

Jeremie Ruble

- KNOXVILLE 'SYMBOL OF EXCELLENCE' SALE PROTOCOL -

BIDDING PRIOR TO THE SALE:

Bidding will open on Wednesday, April 29, 2020 at 8 a.m. The Race Horse style bidding option will be open until 6:29 p.m. prior to the 2020 Knoxville 'Symbol of Excellence' Sale. The LIVE AUCTION which will begin at 6:30 p.m. We encourage you to utilize DVAuction.com for bidding if you do not wish to be present during the sale. As stated, we will be hosting a live auction to close out the bidding period for the sale.

LIVE AUCTION BIDDING:

The live auction will begin at 6:30 p.m. The starting bids will be taken from the previous "winning" bids during the Race Horse style bidding prior to live auction. Buyers will be able to bid online during the live close. They can also call a sales representative to place bids. We will only be able to have 25 people in the auction market during the live auction portion of this year's sale.

INTERNET BIDDING: WWW.DVAUCTION.COM

In the event the live sale is cancelled we will be doing a bid off on DV Auction at the same time. Please see the ICA Website for sale updates, videos and supplement sheets: <https://bit.ly/3cyPIAH>

BULL & HEIFER VIEWING:

Prior to cattle being shipped to Knoxville on 4/29, please make an appointment with the Werner Family to view. Jim: (641) 344-5059 • Joe: (641) 344-4926. Once cattle are transported to Knoxville on 4/29, please make an appointment prior to sale day, with Jeremie Ruble, to view lots.

SALE DAY VIEWING:

Sale day viewing will be available. Please understand that there can only be 10 people at a time viewing lots to comply with CDC recommendations. We will be managing foot traffic in the viewing pens on sale to comply with these recommendations.

LIVE AUCTION PROTOCOL:

In order to comply with CDC recommendations, we will only allow 25 people in the auction pavilion during the live portion of this sale. We encourage all buyers who are present to bring a device that will allow them to bid remotely in their vehicles. Whether that be online or by phone. The Knoxville Regional Livestock Market has WiFi capabilities, which will allow buyers to view the auction from a computer, tablet, or phone outside of the auction pavilion. However, please be prepared to utilize multiple communication devices in the event of connectivity issues.

PICK-UP & DELIVERY:

Consignors and/or sale management staff will coordinate FREE delivery within 150 miles of Knoxville Regional Livestock Market. They will also coordinate delivery over 150 miles at cost to the BUYER from Knoxville Regional Livestock Market. Bulls and heifers can be picked up at the conclusion of the live auction. Next day pick-up is available by making an appointment with Jeremie Ruble, 406-581-7940.

SAV ANGUS VALLEY 1867
DEPPE PRIDE 6101
GRANGER PRIDE 275

One of the hot-
test bulls in the
breed for his ex-
cellent calving
ease and high
customer satis-
faction. 316 did
an excellent job on heifers; they were born
small and grew quite well. The females he left
out of our first calf heifers look outstanding.
Excellent calving ease option for heifers.

- DEER VALLEY ALL IN
- NELSON PHANTAISIA 607
- NELSON PHANTAISIA 023

Calf 904 was the one that caught my attention every time I was out in the pasture last summer with his style and correctness. He is a combination calf with good growth and rib-eye and marbling scores. Plus his genomics score for heifer pregnancy is in the top 2% and his 4-year-old dam has had three calves with 365 day calving interval. Talk about covering all the bases!

SPRING YEARLING BULLS

Angus

Lot 277 WTR 131 DESTINATION 476-981

BD: 3/9/19 • REG #19497014 • TATTOO: 981
WILLER TIMBER RIDGE - Ted Willer - Greencastle, IN 46135

B/R DESTINATION 928-7222
B/R DESTINATION 7222-476
B/R RUBY OF TIFFANY 17

WTR 710-FORWARD 906
WTR 906-925 VERITY 131
WTR 4354-0613 PRIDE 925

Here's a real cow bull (84# BW)...#6 for Feed Efficiency; gained over 5 lbs./day! ADG of 5.11 ratioed 119! F:G 4.94 is 19% BETTER than average. High growth, high carcass bull in top 15% for feedlot (\$F) and top 4% for \$B. Large 15.4" ribeye (1.20 sq in/cwt) while carrying 4.72% marbling. Excellent feet. Dam production: 4 BWR 103; 5 WWR 107; 3 YWR 103; 3 IMF ratio 88; and 3 RE ratio 105. Very nice, highly fertile and highly productive moderate framed cow. Easy fleshing; good feet. At 1,289 lbs. not only checks most of the boxes, he is among the top test leaders in many categories. More gain, less feed, more carcass value... that's extra profit. NOTE: CAB..."Target the Brand" qualified.

This bull has been a steady grower since he hit the ground. His EPDs have him in the top 25% for 12 traits. This bulls yearling weight is in the top 5% and he is supporting this with his average daily gain of over 4 lbs./day since birth. His mother had plenty of milk with a nice udder and perfect teat size. He is targeting the brand for Angus cattle with his impressive carcass traits with high marbling and a \$B of 162. He is an easy keeper and has impressive bull shape with a very docile temperament. This guy is a gentle giant with good feet.

STERLING CATTLE PARTNERS - Allan Johnson & Wes Dohlman - Northwood, IA 50459

CONNEALY ONWARD
SITZ UPWARD 307R
SITZ HENRIETTA PRIDE 81M

HF TIGER 5T
SCP FOREVER LADY DAFNEY 50D
FOREVER LADY 56B

Nothing new and flashy in this pedigree, just old unbelievably maternal names and numbers, Sitz Upward and a Hageman Forever Lady granddaughter. This bull has 14 EPD's in the top 35% of the breed, nine of them in the top 15% and most of them are maternal traits. Like CEM 35%, Milk 35%, \$W 10% and MH 10%. If you intend to keep replacement heifers to go back into your herd why would you not be interested in this individual. As a bonus he gained nearly 5 lbs. per day and had a carcass wt. EPD in the top 15% of the breed. Besides that, he is not too hard to look at.

Dam's Production: 1-WWR 98 (from first calf heifer). Granddam and 3rd dam are both Pathfinders and among our best cows. Granddam is now 11-years-old and her calf again was a top calf (she is still a Pathfinder with WWR 102)! Heifer is by Tex Playbook x Right Answer son x Summitcrest Complete back to the Sitz Barbaramere Nelle family that produced a \$12,000 pregnancy for us in a past Denver NWSS sale. Top 1% \$M; 5% \$W; 10% CED.

Dam's Production: First calf heifer 1-WWR 97. Goes back to our strong "125" cow that produced an \$8,000 bull for us at IBEP/IN test. She shows to have top 10% RADG/feed eff EPD; \$F; \$B; top 15% RE and top 20% \$G. High MB with 5.61 % IMF (103). Heifer has DNA of top 12% for tenderness...the next highly sought trait for beef from "pasture to plate!" We see feed efficiency and tenderness as long-term traits of this Miss Traveler cow family.

Endura Gate

The portable gate system that works like permanent fence.

- Use as calving pens, fence, swinging gates or anywhere corral panels are used.
- The 10' gates swing 360 degrees and fold flat against either side of the mainframe.
- Tires will easily break free from any frozen surface.
- Models range from 20' to 60', and make up to four calving pens with one freestanding gate.

Perfect for Calving Season

Endless Applications

Compact & Mobile

Never Drag a Gate Again!
